Greek letters				

To accomplish this...	...do this
make new paragraph w/o skipping line make new paragraph w/ line skip make carriage return w/o new paragraph make new page not indent a sentence center text	hit ENTER twice type <code>\backslash</code> , then ENTER twice type <code>\newpage</code> <code>\noindent</code> surround centered text with <code>\begin{center}</code> and <code>\end{center}</code>
leave a horizontal space leave a small horizontal space leave a vertical space	<code>\hspace{amount of space}</code> type <code>\,</code> or <code>\;</code> or <code>\quad</code> or <code>\quad</code> <code>\vspace{amount of space}</code>
make a centered equation make a centered series of aligned equations	surround equation with <code>\[</code> and <code>\]</code> surround with <code>\begin{align*}</code> and <code>\end{align*}</code> ; type <code>\backslash</code> for carriage returns and <code>&</code> before the characters in each line you want to align vertically
toggle math mode comment your code	type <code>\$</code> type <code>%</code> ; the comment goes until you hit ENTER

To make the font look like this (in text mode)	...type this
word	<code>word</code>
<i>word</i>	<code>\textit{word}</code> or <code>\emph{word}</code>
word	<code>\textbf{word}</code>
<u>word</u>	<code>\underline{word}</code>
word	<code>\textsf{word}</code>
WORD	<code>\textsc{Word}</code>
WORD WORD <u>WORD</u>	<code>\textsc{Word} \textbf{Word} \textsc{Word}</code> <code>\textsc{Word} \textbf{Word} \underline{\textsc{Word}}</code>
Changing font face	
Word	<code>\scriptsize{Word}</code>
Word	<code>\footnotesize{Word}</code>
Word	<code>\small{Word}</code>
Word	<code>Word</code>
Word	<code>\large{Word}</code>
Word	<code>\Large{Word}</code>
Word	<code>\LARGE{Word}</code>
Changing font size	
To make a list like this...	...type this
1. Here is the first item.	<code>\begin{enumerate}</code> <code>\item Here is the first item.</code>
2. Here is another item.	<code>\item Here is another item.</code>
3. Here is the last item.	<code>\item Here is the last item.</code> <code>\end{enumerate}</code>
i. Here is the first item.	<code>\begin{enumerate}</code> <code>\item[i.] Here is the first item.</code>
ii. Here is another item.	<code>\item[ii.] Here is another item.</code>
T. Here is the last item.	<code>\item[T.] Here is the last item.</code> <code>\end{enumerate}</code>
• Here is the first item.	<code>\begin{itemize}</code> <code>\item Here is the first item.</code>
• Here is another item.	<code>\item Here is another item.</code>
• Here is the last item.	<code>\item Here is the last item.</code> <code>\end{itemize}</code>
Label 1 Here is the first item.	<code>\begin{description}</code> <code>\item[Label 1] Here is the first item.</code>
blah blah Here is another item.	<code>\item[blah blah] Here is another item.</code> <code>\end{description}</code>
1. Warm colors	<code>\begin{enumerate}</code>
(a) Red	<code>\item \begin{enumerate}</code>
(b) Orange	<code>\item Red</code>
2. Cool colors	<code>\item Orange</code>
• Purple	<code>\end{enumerate}</code>
• Blue	<code>\item \begin{itemize}</code>
	<code>\item Purple</code>
	<code>\item Blue</code>
	<code>\end{itemize}</code>
	<code>\end{enumerate}</code>
